
ALICE MCKAY

JUNIOR FRONT-END DEVELOPER

PROFILE

I have worked consistently to develop a strong skillset in several programming languages, the most notable being HTML, CSS, Javascript and React.js. Using these languages, I am able to build powerful and responsive web applications that carefully consider the user experience, providing smooth, user-friendly interactions with attractive styling.

EDUCATION

JUNIOR DEVELOPER DIPLOMA

2023-2024 SheCodes

BA (HONS) HISTORY AND PHILOSOPHY

2:1

2018-2021 Queens University Belfast

A LEVELS: ENGLISH LITERATURE (B),
FRENCH (B), HISTORY(B)

2016-2018 Glenlola Collegiate School

9 GCSES AT GRADES(A*-B) INCLUDING
ENGLISH LITERATURE AND
MATHEMATICS

2014-2016 Glenlola Collegiate School

EXPERIENCE

SHECODES BOOTCAMP 2023-2024

Throughout my year of study and creation of my portfolio, I gained a strong skillset in front-end development languages such as HTML, CSS, Javascript and React.js as well as a foundational knowledge of Python and AI API.

Within my portfolio, my projects have two central focuses: the elegance of the user interface and quality of user experience.

I use a combination of pure CSS and bootstrap to make my projects attractive, using colouring techniques to draw the user's eye to important features and connect the project to the corresponding brand.

To optimise the user experience, I make my web applications responsive, this allows greater accessibility on a wider range of devices, catering to a larger amount of users. With smooth API integration linked to a select primary button, I make my applications user friendly while yielding a powerful response.

All of my projects were built with real-life development workflow and are hosted with a regularly updated Github repository, providing each web application with a reliable foundation.

INTERESTS

I enjoy being creative and have a strong enthusiasm for developing my artistic skills, using them to engage with my local and national communities, such as sharing my artistic journey of making traditional dolls. I was chosen as the winner of a British craft business's, Heidifeathers, needle felting competition. The photograph of my creation was displayed on their business cards and on their Facebook page. I am currently researching techniques for improving UI design in my leisure time.
